Career Objective

Economics graduate with extensive experience across multiple research and data-driven roles, including academic and field-based. Working as a Research Assistant under a faculty supervisor, contributing to data collection, literature review, and analytical tasks. Skilled in STATA, SPSS, and report writing, with a strong interest in development research and evidence-based policy. Seeking to apply research and analytical skills in a development-focused organization through rigorous research, project implementation, and continuous learning.

Work Experience

August 2024 – Present

Designation: Research Assistant

Employer: Dr. Apurba Roy, Associate Professor & Chairman, Department of Economics, University of Barishal

Key Responsibilities:

- Assisted in academic and applied research activities, including literature review, survey design, and primary data collection. Managed data cleaning and performed preliminary quantitative analysis using STATA. Contributed to report writing, editing, and visualization of research outputs. Coordinated with the supervisor on research tasks, timelines, and overall project implementation.
- Currently supporting research on early warning systems in coastal areas, focusing on community response and disaster preparedness. Assisting in research design, desk review, data preparation, and analytical documentation.

November 2025 – January 2026

Designation: Research Intern (Economic Growth Portfolio)

Employer: Innovision Consulting Private Limited

Key Responsibilities:

- Assisted in creating and proofreading questionnaires for 5 different types of sample populations. Took 30+ KII while maintaining confidentiality and transcribed it with 100% accuracy. Performed secondary desk reviews, assisted in preparing the inception report, and supported drafting and visualizing the final research report. Organized meetings and workshops, and helped in creating and visualizing the research report.

July 2024 – March 2025

Designation: Data Entry Clerk

Employer: Data Orchard

Key Responsibilities:

- Accurately entered and maintained (2500+ rows) data within specified databases, ensuring integrity and confidentiality. Verified information, corrected errors, and updated records for efficient data management. Collaborated with team members to enhance data processing efficiency.

Research Experience

Title: Assessing Waste Management Behaviour through a Knowledge, Attitude, and Practice (KAP) Lens: A Case Study of Coastal Urban Households in Bangladesh

Timeline: October 2025 - Present

Responsibilities:

- Assisting in creating the questionnaire, collecting data through **Kobo Toolbox**, assisting in literature review, and data analysis. Used **Logistic Regression** as our primary model in STATA software.

Title: Assessing Food Security and Household Coping Strategies in Coastal Bhola: An Empirical Study

Timeline: January 2025 – Present

Responsibilities:

- Collected the data using Google Forms and analyzed it using STATA. Used a Logistic Regression Model to find out the food security status and a **Poisson Regression** Model to identify the coping strategy status.

Academic Qualification

September 2025 – Present MSS in Economics

University of Barisal
